Incident Narratives

Original Narrative

Author: Officer J. Schwartz #S9749 Date Created: 05/20/2019 0600 Hrs Supp #: 0

On May 20th, 2019 at approximately 01:12 a.m., I was driving my fully marked police vehicle south bound on Ronald Reagan Parkway from East U.S. Highway 36. At approximately the 500 Block south of Ronald Reagan Parkway, I observed a vehicle traveling north bound with no other vehicles in the vicinity and my radar unit alerted me the vehicle was traveling 59 miles per hour in a 45 miles per hour zone. After the vehicle passed me, I conducted a U-Turn and began to follow the vehicle. While approaching East U.S. Highway 36 I observed the vehicle, a black Volkswagen Beetle bearing plate number [REDACTED], drift from the north bound traffic lane partially into the turn lane for west bound traffic for the intersection and then back into the north bound traffic lane. I initiated my emergency lights and briefly activated my vehicle's siren after clearing the intersection. The vehicle continued to travel north bound on Ronald Reagan Parkway a short distance before coming to a stop at approximately the 300 Block North Ronald Reagan Parkway.

I approached the vehicle and made contact with the driver and sole occupant of the vehicle who was identified as Al Unser Junior date of birth [REDACTED]. While interacting with Unser Jr. I observed him to have red and glossy eyes, slurred speech, and detected an odor commonly associated with alcoholic beverages emanating from his vehicle and person. I asked him if he had consumed any alcoholic beverages earlier in the evening and he responded that he had not.

After reviewing his BMV information, I re-approached the vehicle. As a result of observing several indicators that Unser Jr. may be possibly intoxicated, I asked him to exit the vehicle to which he complied. Unser Jr. pulled himself from the vehicle, staggered while walking to the rear of his vehicle, and leaned against the trunk of his vehicle. I gestured Unser Jr. to walk over to the shoulder of the roadway for our safety by moving away from traffic lanes. Unser Jr. walked onto the embankment, lost his balance, fell to the ground, and rolled down the embankment. After helping Unser Jr. stand back up, I began to converse with him again. I continued to observe earlier indicators of possible intoxication as well as continued to detect an odor commonly associated with alcoholic beverages emanating from his person. I asked him again if he had consumed any alcoholic beverages earlier in the evening to which he responded he had not.

I asked Unser Jr. if he would participate in field sobriety testing. Unser Jr. refused to participate in any of the field sobriety tests. I asked him if there was anything I could do to convince him to participate in the tests to which he responded I could not. With his refusal to participate in field sobriety testing and observing several indicators of possible impairment, I placed him in handcuffs and detained him. After detaining him I informed him of implied consent and he stated he refused to submit to a chemical test. I transported him to the Avon Police Department where he remained detained under the observation of an assisting officer while I applied for a warrant for a blood draw. At the police department, Unser Jr. complained about the tightness of the handcuffs on his wrists. Tightness was checked multiple times and after continued complaints I slightly loosened them further.

After successfully applying for a blood draw warrant on Unser Jr., I transported him to Hendricks Regional Hospital. While en-route to the hospital, Unser Jr. continued to complain about the tightness of the handcuffs. I stopped my vehicle and checked for tightness again to find the tightness of the handcuffs appropriate. At the hospital, Mae Long, an employee of Hendricks Regional Hospital, obtained two vials of blood from Unser Jr.'s arm at 03:02 am. I secured the blood samples, which were submitted as evidence.

After a successful blood draw and a medical clearance, I transported Unser Jr. to the Hendricks County Jail and charged him with operating while intoxicated with a blood draw pending.

During my entire interaction with Unser Jr., he was consistently verbally hostile towards assisting officers and I.
